HEAT AND POWER
ALLIANCE

Webinar Q&A
The Combined Heat and Power Alliance
February 29, 2024

Can we get a link to the map of eligible "coal plant" areas?

<https://arcgis.netl.doe.gov/portal/apps/experiencebuilder/experience/?id=09457c326145417595287951ed376a29> — **Kelly Visconti**

Can you supply the links to the DOE programs that were on Kelly Visconti's slides?

Links to several of the programs mentioned:

- <https://www.energy.gov/mesc/advanced-energy-manufacturing-and-recycling-grants>
- <https://www.energywerx.org/opportunities/iacimplementationgrants>
- <https://doerebates.my.site.com/rebates/s/>

Kelly's full slides can be found here: https://chpalliance.org/wp-content/uploads/2019/08/Kelly-Visconti_MESC_CHPA-Webinar-2.29.24.pdf

Sophie, what type of engine did you install at your facility?

A 2.6 MW engine. — **Sophie Chase**

Does Renew Energy work with the manufacturers or just the clients? Do they have a stale of recommended manufacturers for the clients?

We work directly with end users as well as with partners (OEMs or EPC turnkey developers). — **Emily Robertson**

Do your cogeneration projects utilize natural gas fuel or are they dependent on renewable fuels only?

Yes, natural gas as well as renewable fuels — **Emily Robertson**

Who does Renew use as their owner's or Design Engineer?

We have a number of partners for project design. If partners who are developing projects come to us for funding, we use that partner for project design. Projects we are developing direct with end users, we are always seeking new partners for providing 30% design and executing our turnkey solutions. — **Emily Robertson**

What is the power range of projects Renew Energy takes on?

We look at projects of all size, looking for total project size of minimum \$1M. Many of our CHP and microgrid projects are in the 1-10MW range. — **Emily Robertson**

Are used and refurbished prime mover equipment eligible for CHP IRA tax credit?

For more information, please contact Emily Robertson at erobertson@renewep.com.

Can Emily offer comment about "incentives" that will be available for projects that do not qualify for commencement during this year?

For more information, please contact Emily Robertson at erobertson@renewep.com.

You mentioned major equipment needs to be on site before first quarter of 2025. Where in the code is this specified?

For more information, please contact Emily Robertson at erobertson@renewep.com.

Historically ITC's have been extended based on an interest in furthering economic benefits. Do you see any indication that the ITC will be extended for CHP after its expiration at year end?

The CHP Alliance is advocating for an extension of the existing ITC. If you'd like to get involved in this effort, please contact Anna Dixon at annadixon@dgardiner.com. — **CHP Alliance**
